

*Connect - Learn - Save lives*

**Workshops - 30<sup>th</sup> June - 1<sup>st</sup> July 2022**

**Conference - 2<sup>nd</sup> July - 3<sup>rd</sup> July 2022**

**Hotel Pullman-Novotel, Aerocity, New Delhi**

## EPOSTER Schedule

**Day 1: 02 July 2022, Session 1 - Time 1030 - 1130**

Screen	Time	Categories	Title	Presenter
1	1030-1035	1.1. Acute Kidney Injury clinical studies	Prevalence of Augmented Renal Clearance and Utility Of ARC and ARCTIC Scores in Predicting Augmented Renal Clearance in the Intensive Care Unit (PROACTIVE STUDY)	K. Girish
	1035-1040	1.1. Acute Kidney Injury clinical studies	Renal Doppler Ultrasound to Predict Acute Kidney Injury in Patients with Acute Circulatory Failure in ICU - A Prospective Observational Study	B. RAJARAMAN
	1040-1045	1.1. Acute Kidney Injury clinical studies	Renal Resistive Index and Power Doppler Ultrasound on admission to Predict Acute Kidney Injury in Acute Circulatory Failure	D. K. Baidya
	1045-1050	1.1. Acute Kidney Injury clinical studies	Clinical profile and Outcome of COVID 19 pneumonia in kidney transplant recipients- A single centre study from western India	J. hirapara
	1050-1055	1.1. Acute Kidney Injury clinical studies	Sequential nephron blockade in acute kidney injury in critically ill patients	A. SAMPRATHI
	1055-1100	10.1. Sepsis clinical studies	Scope of minocycline as 'colistin sparing' agent - Experience of a tertiary care cancer hospital	S. Mukherjee

Screen	Time	Categories	Title	Presenter
2	1030-1035	10.1. Sepsis clinical studies	A prospective study to find prevalence of multiple drug resistant organisms in liver disease patients admitted to icu	K. Rakam
	1035-1040	10.1. Sepsis clinical studies	Clinical outcomes of surgical sepsis and septic shock protocols in surgical intensive care unit	P. BOONTOTERM
	1040-1045	10.1. Sepsis clinical studies	Comparison of endothelial dysfunction using ultrasonographic parameters between septic and non septic patients undergoing laparotomy : prospective observational study	R. Hosur
	1045-1050	10.1. Sepsis clinical studies	Hypoperfusion context as a predictor of 28-day all-cause mortality in septic shock patients: A comparative observational study	S. KATARIA
	1050-1055	10.1. Sepsis clinical studies	Prognostic and Therapeutic Value of Venous to Arterial Carbon Dioxide Difference during Early Resuscitation in Critically Ill Nosocomial Septic Shock Patients	M. K. Narava
	1055-1100	10.1. Sepsis clinical studies	Prospective comparison of different scores in analysis of sepsis	K. G. VISHNUKUMAR
3	1030-1035	10.1. Sepsis clinical studies	Study Of Troponin T & Simplified Acute Physiology Score (SAPS) In Patients Of Sepsis – A Hospital Based Prospective Observational Study	S. Bahekar
	1035-1040	10.1. Sepsis clinical studies	Ultrasonographic assessment of brachial artery reactivity as a predictor of adverse outcome in patients undergoing emergency laparotomy for perforation peritonitis: prospective observational study	R. Hosur Ravikumar
	1040-1045	10.1. Sepsis clinical studies	The global burden of sepsis is estimated as 15 to 20million cases annually, with a mortality rate approaching 60% in low-income countries	A. W. Ahmadzai
	1045-1050	10.3. Sepsis monitoring	Effect of dobutamine on renal resistive index as a marker of organ perfusion in septic shock patients	S. Mandava
	1050-1055	10.3. Sepsis monitoring	Evaluation of interleukin 6 as biomarker to predict response to empirical antibiotic therapy and survival in sepsis and septic shock	H. R. Narendra
	1055-1100	10.3. Sepsis monitoring	Evaluation of PCO2 GAP as resuscitation marker in shock patients	H. VAIDYA

Screen	Time	Categories	Title	Presenter
4	1030-1035	11.1. Metabolism, endocrinology and nutrition clinical studies	modified Nutric Score (mNUTRIC) Score as a Mortality Prediction tool in Mechanically Ventilated Patients: A Prospective Observational Study	C. R. ROY
	1035-1040	11.1. Metabolism, endocrinology and nutrition clinical studies	COMPARISON between INDIRECT CALORIMETRY vs WEIGHT BASED EQUATION (25KCAL/KG/DAY) for Reduction of QUADRICEPS MUSCLE THICKNESS Assessed by Bedside ULTRASONOGRAPHY- A Randomized Clinical Trial	A. CHANDRASEKARAN
	1040-1045	11.3. Metabolism, endocrinology and nutrition monitoring	A simple, dynamic, easy to use weight based calorie and protein intake rule for enteral nutrition in critically ill patients	B. Baldwa
	1045-1050	11.4. Liver failure	Acute Kidney Injury post Live Donor Liver Transplantation (LDLT): Incidence and Risk factors	M. Jain
	1050-1055	11.4. Liver failure	Therapeutic plasma exchange in expanded dengue patients having acute liver failure: a case series	L. N. Nizhu
	1055-1100	12.1. Neurointensive clinical studies	Alterations in the Resting-State Functional Magnetic Resonance Imaging findings done during the acute stage of management of severe traumatic brain injury patients associated with the mortality outcome at one year: a prospective observational study	R. Surve
5	1030-1035	12.1. Neurointensive clinical studies	Clinical effects of cerebral near-infrared spectroscopy monitoring (NIRS) and guide intervention versus standard usual care in Comatose patients	P. BOONTOTERM
	1035-1040	12.2. Neurointensive care experimental studies	INDian Trial of TRanexamic Acid IN Spontaneous IntraCerebral Haemorrhage (INTRINSIC) Trial - Study Protocol	A. PHILLIPS
	1040-1045	12.3. Neurointensive care monitoring	Prediction of space-occupying hemispheric infarction after endovascular treatment using automated pupillometry	J. Koehn
	1045-1050	12.3. Neurointensive care monitoring	Comparison Of USG Guided ONSD With Clinico-Radiological Diagnosis Of Raised ICP In Neuro ICU Patients	A. BHOYAR
	1050-1055	12.3. Neurointensive care monitoring	NICON (Non-invasive IntraCranial pressure measurement using Optic nerve sheath diameter in Neuro-critical care) trial	P. Chandan

**Day 1: 02 July 2022**  
**Session 2 - Time 1700 - 1730**

Screen	Time	Categories	Title	Presenter
1	1700-1705	14. Paediatrics	Overlapping spectrum of severe Multi inflammatory syndrome amidst endemic tropical infections – a comparative study from a North Indian Pediatric Intensive Care Unit	A. Chattopadhyay
	1705-1710	15.1. Perioperative clinical studies	Intubation in immobile cervical spine injury patients using Bougie or Stylet. Which is quick?	A. Hazarika
	1710-1715	15.1. Perioperative clinical studies	Prolongation of QT interval following Cytoreductive Surgery with Hyperthermic Intraperitoneal Chemotherapy - A retrospective analysis	S. Mukherjee
	1715-1720	15.2. Perioperative monitoring	Comparison of Pre-operative Assessment of Gastric Volume and pH in Patients Undergoing Elective Surgery with Prior 2-hour Fasting versus Overnight Fasting – A Randomized Clinical Trial	M. Jha
	1720-1725	15.2. Perioperative monitoring	Reaching the end of fluid therapy conundrum: Are we there yet?	P. Upadhyay
	1725-1730	16. Poisoning/ Toxicology/Pharmacology	Epidemiology, Clinical Profile and Outcome of Aluminium Phosphide Poisoning Treated With Extra-Corporeal Membrane Oxygenation Therapy: Our Experience from a Tertiary Care Hospital in North India	S. Behera
2	1700-1705	16. Poisoning/ Toxicology/Pharmacology	Bee sting A monster of the heart	N. Mary
	1705-1710	16. Poisoning/ Toxicology/Pharmacology	Extracorporeal removal of paraquat using charcoal hemoperfusion. A case series	P. NEGI
	1710-1715	16. Poisoning/ Toxicology/Pharmacology	A case report of chronic lead poisoning	S. Mukherjee
	1715-1720	16. Poisoning/ Toxicology/Pharmacology	Sochurek's Saw-scaled Viper: Deadliest enemy in desert! A case series	A. K. DAS
	1720-1725	17.1. Sedation, analgesia and delirium: clinical studies	Incidence, Risk factors and Outcome of Delirium: A Study from Indian ICU	A. KHAN
	1725-1730	17.1. Sedation, analgesia and delirium: clinical studies	Pain in Neuro Intensive Care Unit. An Interim analysis of preliminary data	S. RP

**Day 1: 02 July 2022**  
**Session 2 - Time 1700 - 1730**

Screen	Time	Categories	Title	Presenter
3	1700-1705	17.1. Sedation, analgesia and delirium: clinical studies	Prospective study to determine the incidence of delirium in critically ill cancer patients	N. Baliga
	1705-1710	18. Systemic diseases	Uncommon presentations of acute pancreatitis – no more uncommon! Observed different aetiologies of pancreatitis in a span of 2 months in a tertiary care intensive care unit	T. SATEESH KUMAR
	1710-1715	19. Transfusion and haemostasis disorders	Haemoglobin drift in Burns patients- Initial or a perpetual problem?	D. Joshipara
	1715-1720	19. Transfusion and haemostasis disorders	Right ventricular thrombus and a COVID patient with overlap connective tissue disorder	A. Ravichandran
	1720-1725	2.1. Acute respiratory failure clinical studies	ROLE OF HFNC IN COVID -19: Is HFNC a “fail-safe” in COVID pandemic ?	P. Chandan
	1725-1730	2.1. Acute respiratory failure clinical studies	V-V ECMO as the Rescue Therapy in Secondary Acute Respiratory Distress Syndrome following Acute Pancreatitis in Two Patients	S. Behera
4	1700-1705	2.4. Artificial airways and complications	Macklin effect as an early radiological predictor of barotrauma inARDS COVID-19 patients in invasive mechanical ventilation	F. J. Casadiego Monachello
	1705-1710	2.4. Artificial airways and complications	Percutaneous Dilatational Tracheostomy in Critically Ill Covid and Non Covid patients-A single centre retrospective study	S. Musanna
	1710-1715	2.5. Mechanical ventilation clinical studies	Role of parasternal intercostal muscle ultrasound during weaning from mechanical ventilation and prediction of extubation success in ICU – a prospective observational study	S. Kannan
	1715-1720	2.5. Mechanical ventilation clinical studies	Ventilator Associated Events- utility beyond surveillance!	S. Chauhan
	1720-1725	2.6. Mechanical ventilation experimental studies	Effects of a novel algorithm for breath cycling in a porcine model	U. BORG
	1725-1730	2.7. Mechanical ventilation monitoring	Mechanical Power and its Correlation with Resistance and Compliance : A Prospective Observational Study	S. pabba

**Day 1: 02 July 2022**  
**Session 2 - Time 1700 - 1730**

Screen	Time	Categories	Title	Presenter
3	1700-1705	17.1. Sedation, analgesia and delirium: clinical studies	Prospective study to determine the incidence of delirium in critically ill cancer patients	N. Baliga
	1705-1710	18. Systemic diseases	Uncommon presentations of acute pancreatitis – no more uncommon! Observed different aetiologies of pancreatitis in a span of 2 months in a tertiary care intensive care unit	T. SATEESH KUMAR
	1710-1715	19. Transfusion and haemostasis disorders	Haemoglobin drift in Burns patients- Initial or a perpetual problem?	D. Joshipara
	1715-1720	19. Transfusion and haemostasis disorders	Right ventricular thrombus and a COVID patient with overlap connective tissue disorder	A. Ravichandran
	1720-1725	2.1. Acute respiratory failure clinical studies	ROLE OF HFNC IN COVID -19: Is HFNC a “fail-safe” in COVID pandemic ?	P. Chandan
	1725-1730	2.1. Acute respiratory failure clinical studies	V-V ECMO as the Rescue Therapy in Secondary Acute Respiratory Distress Syndrome following Acute Pancreatitis in Two Patients	S. Behera
4	1700-1705	2.4. Artificial airways and complications	Macklin effect as an early radiological predictor of barotrauma inARDS COVID-19 patients in invasive mechanical ventilation	F. J. Casadiego Monachello
	1705-1710	2.4. Artificial airways and complications	Percutaneous Dilatational Tracheostomy in Critically Ill Covid and Non Covid patients-A single centre retrospective study	S. Musanna
	1710-1715	2.5. Mechanical ventilation clinical studies	Role of parasternal intercostal muscle ultrasound during weaning from mechanical ventilation and prediction of extubation success in ICU – a prospective observational study	S. Kannan
	1715-1720	2.5. Mechanical ventilation clinical studies	Ventilator Associated Events- utility beyond surveillance!	S. Chauhan
	1720-1725	2.6. Mechanical ventilation experimental studies	Effects of a novel algorithm for breath cycling in a porcine model	U. BORG
	1725-1730	2.7. Mechanical ventilation monitoring	Mechanical Power and its Correlation with Resistance and Compliance : A Prospective Observational Study	S. pabba

**Day 1: 02 July 2022**  
**Session 2 - Time 1700 - 1730**

Screen	Time	Categories	Title	Presenter
5	1700-1705	2.8. Non-invasive ventilation	"Outcomes Of Bi-level Positive Airway Pressure And High Flow Nasal Cannula Oxygen In Patients With Acute Respiratory Distress Syndrome –A Prospective Observational Study."	M. A. CHANDESHA
	1705-1710	2.8. Non-invasive ventilation	An observational study on the impact of duration of High Flow Nasal Oxygen prior to intubation in COVID-19 acute hypoxemic respiratory failure patients who received invasive mechanical ventilation following HFNO failure (HOVM study)	R. Kundu
	1710-1715	2.8. Non-invasive ventilation	Evaluation of common nasal cannulas in synchronized neonatal noninvasive ventilation using a novel neonatal nasal model	U. BORG
	1715-1720	2.8. Non-invasive ventilation	Quality Improvement Project on Provision of Non-Invasive Ventilation to adult patients at Blackpool Victoria Hospital	A. Ravichandran
	1720-1725	22. Data Science	Retrospective analysis Undertaken for the Patients Treated for Unexplained Retroperitoneal/ abdominal pain in the Emergency Department (RUPTURED) – Abdominal Aortic Aneurysm (AAA) arm RUPTURED-ARM	A. Ravichandran
	1725-1730	22. Data Science	RUPTURED- Retrospective analysis undertaken for Patients Treated for Unexplained Retroperitoneal/abdominal pain in Emergency Department	A. Ravichandran

**Day 2: 03 July 2022**  
**Session 3 - Time 1045 - 1115**

Screen	Time	Categories	Title	Presenter
1	1045-1050	4.1. Cardiac arrest clinical studies	Incidence and Predictors of Peri-intubation Cardiac Arrest: A systematic review and meta-analysi	C. Malhotra
	1050-1055	4.1. Cardiac arrest clinical studies	Utility and safety of steroids in cardiopulmonary resuscitation of in-hospital cardiac arrest patients: A Systematic Review and Meta-analysis	A. K. Sahu
	1055-1100	4.1. Cardiac arrest clinical studies	Duration of prehospital advanced airway management without sufficient respiratory monitoring and neurologically favorable survival after out-of-hospital cardiac arrest: a Japanese regeitry-based study	T. Fukuda
	1100-1105	4.1. Cardiac arrest clinical studies	Prognostic Value of Initial Cardiac Activity Assessed by Point-of-care Ultrasonography in Cardiac Arrest	A. K. Sahu
	1105-1110	4.1. Cardiac arrest clinical studies	Sudden Cardiac Arrest is not Sudden – A Meta-analysis of Warning Symptoms of Cardiac Arrest	A. K. Sahu
	1110-1115	5.1. Cardiovascular clinical studies	Use of military anti-shock trousers in resuscitation of acute circulatory failure patients in intensive care unit	P. BOONTOTERM
2	1045-1050	5.3. Cardiovascular monitoring	A comparative observational study on assessing dynamic indices of fluid responsiveness – PPV and SPV in critically ill mechanically ventilated patients between non-invasive finger cuff and invasive arterial pressure catheter	P. chinnapothala
	1050-1055	5.3. Cardiovascular monitoring	Epidemiology and clinical characteristics of cardiovascular dysfunction in critically ill COVID-19 patients: A prospective cohort study	A. TP
	1055-1100	6.1. Critical care organisation, quality management and costing issues	Targeted intervention to improve critical care procedural skills as well as documented reviews- a quality improvement project	A. Ravichandran
	1100-1105	6.1. Critical care organisation, quality management and costing issues	The association between omission of early thromboprophylaxis and mortality in critically ill patients	B. Sahle
	1105-1110	6.2. Critical care outcomes	Dilemma of Anticoagulation and Enoxaparin dose determination to achieve recommended Anti-Xa levels in Burns patient	D. Joshipara
1110-1115	6.2. Critical care outcomes	Factors Associated with Failure to Rescue (FTR) in Post-operative Oncological Patients: Experience of a Tertiary Cancer Care Centre	R. Dash	

**Day 2: 03 July 2022**  
**Session 3 - Time 1045 - 1115**

Screen	Time	Categories	Title	Presenter
3	1045-1050	6.2. Critical care outcomes	A multi-centric retrospective study on the comparative outcomes among COVID-19 patients receiving high and low-to-moderate dose corticosteroid therapy at various time intervals	B. Sain
	1050-1055	6.2. Critical care outcomes	Assessment of quality and quantity of sleep among patients in Aster Medical ICU and viable interventions for its improvement:Audit-cum-interventional study	C. Mathew
	1055-1100	6.2. Critical care outcomes	Assessment of Quality of life in follow-up patients with COVID-19 pneumonia	C. M. Tatikonda
	1100-1105	6.3. Critical care severity-of-disease scoring systems	Prevention of unnoticed deterioration and improvement in outcome of critically ill patients by implementation of National Early Warning Score 2 (news2) in a High Dependency Unit in Bangladesh: A quality improvement project	A. M. Anam
	1105-1110	8. Imaging in intensive care	A study of association of lung and diaphragm ultrasound finding with weaning from ventilator	S. Mohanty
	1110-1115	8. Imaging in intensive care	Lung and diaphragmatic ultrasound as weaning predictors in critically ill mechanically ventilated patient	K. VADAPALLI
4	1045-1050	8. Imaging in intensive care	Effect of VExUS grade guided fluid management on serum lactate and vasoactive-inotropic score in sepsis	T. Dinesh
	1050-1055	8. Imaging in intensive care	To study the predictive value of serial assessment of diaphragmatic thickness on weaning of patients from mechanical ventilation	N. Jain
	1055-1100	8. Imaging in intensive care	First pass success rate of tracheal needle insertion by surface anatomical landmark vs ultrasound guided bedside percutaneous tracheostomy in critically ill adults: a randomized study	S. Chakraborty
	1100-1105	8. Imaging in intensive care	Assessment of characteristics and determinants of upper limb veins for successful peripherally inserted central catheter insertion using USS in critically ill adult patients	A. Mudalige
	1105-1110	8. Imaging in intensive care	Bedside Lung ultrasound as an independent tool to diagnose pneumonia in comparison to chest X-ray: An observational prospective study from Intensive care units	J. Dhawan
	1110-1115	9. Infections and prevention	“ADAMTS 13 Behaviour in Thrombocytopenia of Infectious origin in ICU: A Prospective Observational Study”	V. D. K. Gontla

**Day 2: 03 July 2022**  
**Session 3 - Time 1045 - 1115**

Screen	Time	Categories	Title	Presenter
5	1045-1050	9. Infections and prevention	An observational study on emerging bacterial infections in ICU	R. CHOUDHURI
	1050-1055	9. Infections and prevention	Dexamethasone in moderate to severe COVID - 19 patients, Vietnam	Đ. M. Hùng
	1055-1100	9. Infections and prevention	Vaccination against COVID-19 and It's Morbidity and Mortality Protection In hospitalized Patients- A Cross Sectional Study	G. K. Ravi
	1100-1105	9. Infections and prevention	Rapid molecular diagnostics vs standard cultures – is it worth the cost?	B. K. Pamulapati
	1105-1110	9. Infections and prevention	Evaluation of Epidemiology and Resistance Patterns of Intensive Care Unit infections: A Single Centred Prospective Observational Study	P. Dhawad
	1110-1115	9. Infections and prevention	Relationship of anemia with Covid-19 deaths- a retrospective cross-sectional study	M. Jha
